Warm-Ups - Graphing Absolute Value Functions

Date

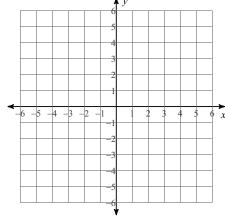

1) Below is the parent graph of the absolute value function.

$$y = |x|$$

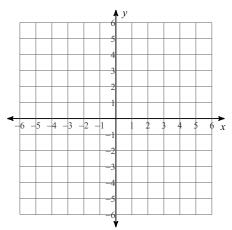

Based on the parent graph of the function above, graph each equation. Consider the transformations you learned this unit. Give the DOMAIN and the RANGE for each function.

2)
$$y = |x| - 2$$

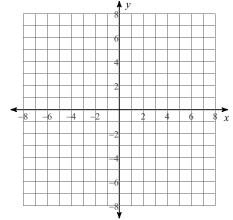

3)
$$y = -|x-3| + 2$$

Graph the piecewise function.

4)
$$\begin{cases} x+3, & -7 < x < 0 \\ x^2, & 0 \le x < 2 \\ -\frac{1}{2}x+5, & x \ge 2 \end{cases}$$

5) Give the DOMAIN and RANGE of the entire piecewise function in problem 4. (Consider it all one function, not three separate pieces.)
