

Sketch the solution to each system of inequalities.

$$1) y < \frac{2}{3}x - 3$$

$$x \geq 3$$

$$2) 5x - y > -3$$

$$x + y \geq -3$$

$$3) y \leq \frac{3}{5}x - 4$$

$$y > x^2 - 4x - 3$$

Sketch the solution to each system of inequalities.

1)  $y < \frac{2}{3}x - 3$

$x \geq 3$

2)  $5x - y > -3$   
 $x + y \geq -3$

3)  $y \leq \frac{3}{5}x - 4$

$y > x^2 - 4x - 3$
